KIROV INSTRUMENT AND ELECTRIC MOTOR PLANT NO 266, KIROV, USSR

25X1A

Kirov Instrument and Electric Motor Plant No 266 [] is located in the northern suburbs of Kirov, USSR, at 58-37-45N 49-39-10E, approximately 1.5 nautical miles northwest of the center of the city (Figure 1). The plant is rail served and surrounded by a security fence. Over 246,700 square feet of floorspace, including a high-bay assembly building, were added to the plant []

[] Although the plant was covered by [] photography in [] this report is based on photography of [] (Figure 2) because of its better quality; there were no significant changes in plant facilities between []

25X1D

Dimensions and descriptions of significant

structures in Plant No 266 are presented in Table 1, which is keyed to Figure 3; Figure 3 also includes perspective and plan views of the new high-bay assembly building.

When first observed in [] Plant No 266 consisted of 7 major buildings and 18 minor structures, containing approximately 970,925 square feet of floorspace. A comparison of the [] photography with photography of [] reveals a considerable amount of new construction. During the period between [] [] the high-bay assembly building (item 1, Figure 3), a workshop (item 2), a steamplant (item 3), and 2 administration buildings (items 9 and 14) were all completed. The total floorspace in the plant, including the
